Lift Up Your Business!

Continental 

The SC 20 – superior technology

Continental's SC 20 tyre generation sets a new benchmark in terms of economy and environmental compatibility. The outstanding features of this innovative tyre speak for themselves – 20 % higher mileage, 30 % reduced rolling resistance and 5 % lower CO₂ emissions than its highly successful predecessor, the SC 15, make the SC 20 an investment that pays off in more ways than one. This tyre is the latest development in an impressive series of successful designs from the engineers at Continental, confirming the company's position as a supplier of premium products.

SC 20 – the new features and benefits

Lower energy consumption
Low heat build-up
Low CO₂ emissions
→ Lower rolling resistance

Very long service life
→ Greater tread volume

Improved traction
→ Greater tread depth

Enhanced driver comfort
Greater stability and safety when carrying loads
→ Optimised cross section

Good cornering stability
→ 2 circumferential longitudinal grooves

Smooth running resulting in more even tyre wear
→ Sturdy central rib/small tread lug gaps

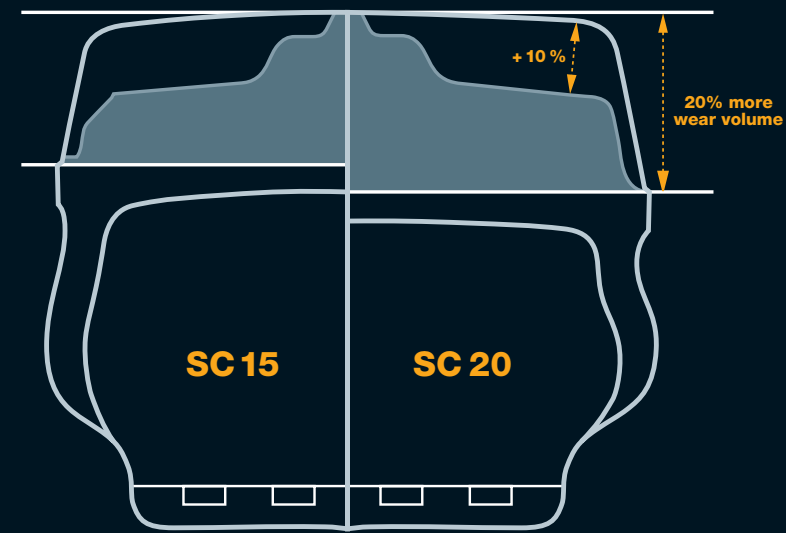

1st testimonial

Aprolis Mitsubishi Caterpillar
Soft drinks (VITTEL CONTREX plant, France)
"Our 3.5 t forklifts run fully laden in tough conditions. The SC 20 achieved an amazing 30 % to 50 % more operating hours than the SC 15, Solideal Magnum and Bergougnan Expert!"

2nd testimonial

Acque San Benedetto
Soft drinks (Scorzè/VE, Italy)
"We were fully convinced by the SC 20 on our Still 3–3.5 t Forklifts. The reasons – exceptionally long service life, comfort and really good traction on wet surfaces."

SC 20 – Economic Sense. Environmentally Sound.

Your benefits as an end-user:

Longer service life
Lower energy consumption
Greater operational safety

= Decidedly lower running costs

Your benefits as a dealer:

The benchmark product in your range
Greater customer satisfaction

= More growth opportunities

3rd testimonial

SP Berner Plastic Group, S.L
Plastic injection moulding (Valencia, Spain)
"To handle our special metal ramps, we have four 1.6 t vehicles fitted with the SC 20 on the front axle. This tyre demonstrated even longer service life, better traction and grip than the SC 15. A safe and very attractive option for us in the light of the many different demands in our daily work."

4th testimonial

Coca Cola Bevande Italia SpA
Soft drinks (Gaglianico/BI, Italy)
"We have to be sure that our forklifts are operational at all times. The service life and traction on the SC 20 are so good that we now have this assurance. Our drivers are happy with the comfort this tyre offers and our buyers with the price."

The new SC 20 – available in the following sizes:

Size	Rim	Availability
125/75-8 CSE Robust SC 20	3.00 D-8 S/SIT	2007
150/75-8 CSE Robust SC 20	4.33 R-8 S/SIT	2007
180/70-8 CSE Robust SC 20	4.33 R-8 S/SIT	2007
